It’s inventory management your way. You call the shots. Now you can access tools and data that help you create custom inventory solutions, leaving you more time to invest back into your business.

What you need, when and where you need it

The Situation
You want complete control of managing your inventory—on your schedule and handled by the employees you choose. You want it done fast and with data to back it up.

The Answer
KeepStock CMI gives you the control, flexibility and instant access you need to effectively manage your inventory at no added cost.

How it Works
Scan: Scan the barcoded labels with your Android or iOS smartphone* and send the order. Need approvals? We’ll help you set up your program to have multiple approvals based on your needs.

Order: Reorder products and reduce manual errors with barcode scanning of your stocked items.

Find: Search the online Grainger catalog or Grainger.com® and select products to add to your order—all from one source.

Manage: Add items to your inventory program, edit users and print labels for your bins right when you need them.

KeepStock CMI Tools
- Search, add and edit products
