Controlled access at your point-of-use locations.
Machines bring visibility to usage by department, employee, or job—helping you take costs out of your business.

**WHAT’S IN IT FOR YOU!**

- **24/7 availability of key products at point-of-use or where needed.**
- **CONTROL ACCESS** without requiring a staffed supply area.
- **INCREASE PRODUCTIVITY** by reducing the time it takes to walk to the supply room.
- **EMPLOYEE ACCOUNTABILITY** for their product transactions.
- **IMPROVE COST ACCURACY** by job, department, employee, or other defined parameters.
- **RELIABLE DATA INTELLIGENCE** with accurate reporting and tracking for better forecasting and planning.
- **REDUCE INVENTORY SPEND** through controlled access, resulting in reduced loss.
- **AUTOMATE ORDERING** to help reduce stockouts and obsolete inventory.
THE SITUATION
You need 24/7 access to key products—when and where you need them. And, you’re looking to increase productivity through improved efficiencies, including placing products at point-of-use.

THE ANSWER
Spend less time searching, more time working with Grainger Vending (GV) solutions. Our machines can help you reduce costs by setting limits on quantities, shifts, jobs, or total dollar value spent. It’s a great way to control product consumption, too. Plus, you get detailed inventory reporting to help you better manage your budget.

HOW IT WORKS
Grainger works with you to identify items to be managed, and select the right machine(s) to do the job.

We deliver and set up the filled machines so they’re ready to use as soon as they’re plugged in.

Employees can scan their ID badge or enter their employee code, use the touchscreen to select the item, remove the product from the machine and log out. It’s easy, reliable, secure and controlled.

Items and quantities removed are automatically uploaded so you can rest easy knowing replenishment orders are processed accurately and in real time. Now you know you’ll have the right products, in the right quantities, at the right time.

Your Grainger Inventory Management Specialist will refill the machines as needed to meet your usage patterns.
