Respiratory Protection

Instructions: This checklist is intended to help you identify potential hazards in your workplace. The questions are based on applicable Federal OSHA standards. Keep in mind that additional state and local regulations may apply, depending upon your location. Please check one answer for each question. If you select “no,” you should investigate further to determine what corrective action may be needed to address the hazard. You can review the specific OSHA Standards outlined below at www.osha.gov/law-regs.html. Choose “General Industry” or “Construction.”

	Questions	OSHA Regulation	Yes	No	N/A
	Written Program				
1)	Does the employer maintain records regarding medical evaluations, fit testing and the respirator protection program?	1910.134(m)			
2)	Does the employer provide at no cost to the employee respirators, training, and medical evaluations?	1910.134(c)(4)			
3)	Has the employer designated a trained person to administer the respiratory protection program?	1910.134(c)(3)			
4)	Has the employer developed and implemented a written respiratory protection program to include the selection of respirators for use in the workplace?	1910.134(c)(1)(i)			
5)	Has the employer developed and maintained medical evaluations for employees required to use respirators?	1910.134(c)(1)(ii)			
6)	Has the employer developed fit testing procedures for tight-fitting respirators?	1910.134(c)(1)(iii)			
7)	Has the employer developed procedures and schedules for cleaning, disinfecting, storing, inspecting, repairing, discarding, and maintaining respirators?	1910.134(c)(1)(v)			
8)	Has the employer developed procedures for proper use of respirators in routine and emergency situations?	1910.134(c)(1)(iv)			
9)	Has the employer developed procedures for regularly evaluating the effectiveness of the respiratory protection program?	1910.134(c)(1)(ix)			

Respiratory Protection

	Questions	OSHA Regulation	Yes	No	N/A
10)	Has the employer developed procedures to ensure adequate air quality, quantity, and flow of breathing air for atmosphere-supplying respirators?	1910.134(c)(1)(vi)			
11)	Has the employer developed training in respiratory hazards to which employees are potentially exposed to during routine and emergency situations?	1910.134(c)(1)(vii)			
12)	Has the employer provided training to employees who are required to use respirators?	1910.134(k)			
13)	Has the employer trained employees in the proper use of respirators, including putting on and removing them, and limitations on their use and their maintenance?	1910.134(c)(1)(viii)			
	General Requirements				
14)	Are respirators provided to personnel working in areas contaminated with harmful dust, fogs, fumes, mists, gases, smokes, sprays, vapors, or oxygen deficient environments?	1910.134(a)(1)			
15)	Are respirators selected on the basis of hazards to which the workers are exposed to?	1910.134(d)(1)(i)			
16)	Prior to fit testing or requiring the employee to use the respirator, does the employer provide medical evaluations for employees using a medical questionnaire?	1910.134(e)(2)(ii)			
17)	Does the employer provide follow-up medical examinations for employees who give a positive response to any question in the medical questionnaire?	1910.134(e)(3)(i)			
18)	Does the employer provide fit testing for employees prior to requiring them to use a respirator and require them to pass this test prior to use?	1910.134(f)(2)			

Respiratory Protection

	Questions	OSHA Regulation	Yes	No	N/A
19)	Is the fit test administered using an OSHA-accepted qualitative fit test (QLFT) or quantitative fit test (QNFT) protocol?	1910.134(f)(5)			
20)	Are self-contained breathing apparatus (SCBA) respirators cleaned and disinfected?	1910.134(h)(1)			
21)	Are emergency use respirators cleaned and disinfected after each use?	1910.134(h)(1)(iii)			
22)	Are respirators stored to protect them from damage, contamination, dust, sunlight, extreme temperature, excessive moisture and damaging chemicals, without deformation of the facepiece and exhalation valve?	1910.134(h)(2)(i)			
23)	Are emergency use respirators inspected at least monthly, documenting the date of the inspection, name of the person who made the inspection, the findings, required remedial action, and a serial number or other means of identifying the inspected respirator?	1910.134(h)(3)(i)(B)			
24)	Are respirator repairs made only by a person trained to perform operations and using NIOSH-approved parts designed for the respirator?	1910.134(h)(4)(i)			
	Training Requirements				
25)	Does the employer explain what the limitations and capabilities of the respirator are?	1910.134(k)(1)(ii)			
26)	Does the employer provide respiratory training to employees that includes why the respirator is necessary and how improper fit, usage, or maintenance can effect use?	1910.134(k)(1)(i)			
27)	Does the employer provide training on how to inspect, put on and remove, use, and check the seals of the respirator?	1910.134(k)(1)(iv)			

Respiratory Protection

	Questions	OSHA Regulation	Yes	No	N/A
	Training Requirements				
28)	Does the employer provide training on how to recognize medical signs and symptoms that may limit or prevent the effective use of respirators?	1910.134(k)(1)(vi)			
29)	Does the employer provide training on how to use the respirator effectively in emergency situations including malfunctions?	1910.134(k)(1)(iii)			
30)	Does the employer provide training on what the procedures are for maintenance and storage of the respirator?	1910.134(k)(1)(v)			
31)	Is retraining on respirators provided at least annually?	1910.134(k)(5)			

Safety Checklist Disclaimer: This safety checklist (the "Material") is made available to the user or other receiver of the Material for general informational purposes only. The Material has been developed with consideration of various factors relevant to the subject area, including federal laws and regulations in effect at the time the Information was created and/or certain good management practices relevant to the subject area. Because every industry and/or workplace presents unique circumstances, the Material does not constitute and is not intended to provide specific advice, assurances, or guarantees concerning any user's compliance with particular regulatory requirements (e.g., OSHA) or other applicable safety and/or health requirements or good management practices. The Material does not constitute training and does not replace the need to properly train all employees nor is the Material a substitute for an assessment of any safety or health hazards present at your facility by a health or safety professional or expert. Users are advised to consult with a legal or other professional advisor concerning specific regulatory compliance requirements applicable to their workplaces and appropriate use of the Material. Users and receivers of the Material are subject in all respects to the terms and conditions set forth www.grainger.com, including those provisions relating to limitation of liability. Users and receivers of the Material assume all responsibility and risk arising from any and all use of and/or reliance upon the Material, including any modifications made thereto. W.W. Grainger, Inc. makes no warranty, express or implied, that the Material is current, accurate, appropriate or complete for any particular facility or requirements applicable to a particular facility.
