

HEALTHCARE WEBINAR

Steam Energy Management: Five Reasons to Survey Your Steam System Now!

April 30, 2013

1:30 to 2:30 p.m. ET 12:30 to 1:30 p.m. CT 11:30 a.m. to 12:30 p.m. MT 10:30 to 11:30 a.m. PT

> TOPICS OF DISCUSSION

- Which traps are the most “mission critical” in a healthcare steam system?
- Why do high-pressure steam traps fail more rapidly?
- What is the best way to test traps?
- Why should trap surveys and training be done together?

Learn steam system best practices to help save money and conserve energy.

This free webinar will explain the benefits of surveying your steam system and what you can do to help ensure your system is working properly.

Keynote Speaker:

Walt Deacon

*Vice President
Thermo Diagnostics*

Walt is the Vice President of Thermo Diagnostics in Lafayette, Indiana. They provide steam consulting services, including steam quality testing, steam system analysis and troubleshooting wet packs.

Walt has 25 years of steam system application engineering experience and is a member of the American Society of Mechanical Engineers (ASME) and AAMI.
